

Automobile Driving Museum - September 20, 2009

The Automobile Driving Museum is a very unique and relatively new museum located in El Segundo (near LAX). The 28,000 square foot facility has over 65 cars on display, including a large number of Packards. The Packards range from a 1916 Twin Six Roadster thru the 20's, 30's, 40's and 50's to a 1956 Super Clipper. Their very low mileage, original 1955 Caribbean was a gift to Jean Peters from Howard Hughes! The general car collection has many rare and unique examples, including some one of a kind. The museum also features unique architecture, many automotive related displays, a small "café" and a gift shop. But most unusual for an automobile museum, every Sunday they take guests for rides in a selection of their museum cars.

Please join us on Sunday, September 20th for our tour of the museum. It will be special. We have arranged for private Packard parking adjacent to the museum, so please try to drive your Packard. They will have some early cars available for "rides" and will have lunch for us. As they are very close to the coast, it should be a pleasant day in cool El Segundo, not nearly as hot as much of Southern California can be on a late summer September day.

Don't miss this tour. Please make your reservation today and join us as we see this museum for the first time. How can you beat the low tour price of \$28 for admission, lunch, "old car" rides and spending time with you Packard friends?? Get you Packard ready for the easy, short drive to El Segundo. Don't forget your camera.

The museum at 610 Lairport Street, El Segundo, CA 90245 (310) 909-0950 is open on Sunday from 10:00am to 4:00pm. We plan to arrive about 11:00am. Driving directions are on the reverse side of this notice.

You may want to visit their web site www.automobiledrivingmuseum.org.
